CHEEKS

Over time, the cheeks flatten, and the skin may begin to sag. This is caused by a natural loss of volume in the cheek area, or what the experts call age-related midface volume loss. JUVÉDERM VOLUMA® XC is designed to add volume beneath the skin's surface to lift and contour the cheek area. Treatments have been proven to last up to 2 years in the cheek area.

LINES & WRINKLES

Over time, your skin loses elasticity and moisture, which contributes to moderate to severe parentheses lines and wrinkles around the nose and mouth. While serums and creams can help moisturize the skin's surface, JUVÉDERM® XC adds volume to smooth these lines and folds, to help give you the natural-looking, long-lasting results you want. Treatments have been proven to last up to 1 year.

LIPS

Whether you've noticed your lips thinning over time, or simply want fuller lips, Volbella® XC can give you natural-looking results that last. Treatments are proven to last up to 1 year.
